

clearplus®

+ SIGNATURE SERIES®

**Continuous,
even pressure
distribution.**

Patented split beam structure in the wiping span maintains ideal pressure distribution to match vehicle windshield contour.

Adapter saddle designed to match original equipment height (low profile) and aesthetic appeal of the blade and arm connections in all arm types.

Leading edge® rubber technology for quiet wiping performance

Universal fit program provides coverage for almost all new and old vehicles (98%) with much fewer SKUs in comparison to competitive programs.
